The Pittsburgh Lamp is one of those inventions that seems to be finished. It seems to reach the end as to goodness of light in every way, and ease of m anagement.

The only care it requires is filling and wiping. Dirt falls out when the chimney is taken off, not into a pocket as in other centraldraught lamps.

Putting in a new wick is a very easy matter indeed. All this seems strange to one who knows how troublesome other good lamps are. It is in all the good lampstores. Send for a primer.
